Political Prisoner Kyle Rittenhouse Can’t Hang Out with White People, Judge Says

Kyle Rittenhouse, the White teenager who defended himself when leftist antifa and jewish pedophiles attacked him during Jacob Blake riots in Kenosha, is now barred from being around White people who don’t hate themselves.

> Kyle Rittenhouse, the Illinois teen charged with fatally shooting two people during protests in Wisconsin last year, has to stay away from white supremacists, guns and booze, a judge has ruled. The decision comes after Rittenhouse, who is free on $2 million bail, was spotted drinking at a bar in Mount Pleasant, Wisconsin, and posed for a picture with two men who flashed an “OK” sign — an alleged white power symbol. Prosecutors asked for the conditions of Rittenhouse’s bail to be changed once the photo surfaced. A Wisconsin judge obliged, declaring Rittenhouse “shall not knowingly have conduct with any person or group of persons known to harm, threaten, harass or menace others on the basis of their race, beliefs on the subject of religion, color, national origin, or gender.”

It is interesting that the judge is harassing and threatening with harm, namely jail time, a teenager based on his race, beliefs and gender. This is a total miscarriage of justice. Only in a banana republic are your beliefs, race or gender taken into account when you are released on bail. Freedom of association was already abolished long ago in this country when civil rights were given to negros and gays. But this isn't even at that level. Rittenhouse is a political prisoner, being held hostage by an anti-White criminal justice system hell bent on ruining his life because he defended myself against leftists scum. The judge who declared this needs to be thrown in jail.
